# SEE YOUR MUSCLES

Hey, Mx. Bone!  
Wha can you see with your  
ultrasound system?

I am looking at your  
biceps brachii muscle,  
the muscle that can flex  
your elbow. And I can  
even see the fascicles!  
But I am having trouble  
to identify the fat layer  
underneath your skin...  
You must be very lean!
